

Safety data sheet

Trade name: **KERODERM**

created on: 05.01.2023
replaces version from: 30.01.2020

1. SUBSTANCE / PREPARATION AND COMPANY NAME

1.1 Product name:

Trade name: KERODERM Regeneration ointment

Other information:

The product is a cosmetic product covered by Regulation (EC) No. 1223/2009 of the European Parliament and of the Council on cosmetic products. Therefore, no safety data sheet is required for the product. Therefore the data sheet does not fully comply with the legal requirements for a safety data safety data sheet.

Product no.: 2076
Description: Tube, 30 g

1.2 Relevant identified use of the substance or mixture and uses advised against:

Recommended applications: Regenerating ointment.
Cosmetic product.

1.3 Details of the supplier providing the safety data sheet:

TURIMED AG.
Industriestrasse 19
CH-8304 Wallisellen
Switzerland
Phone: +41 43 443 31 31
Fax.: +41 43 443 31 32
E-Mail: info@turimed.ch
Web: www.turimed.com

1.4 Emergency numbers:

CH: Phone: +41 (44) 251 51 51 / speed dial 145 (Tox Info Suisse, Zurich).
AT: Phone: +43 (0) 1 / 406 43 43 (Poison Information Centre Vienna)
DE: Phone: +49 (0) 30 1 92 40 (Berlin Poison Control Centre)

2. POSSIBLE HAZARDS

2.1 2.1 Classification of the substance or mixture according to 1272/2008/EC:

CLP classification: The product is not to be classified as hazardous according to the labelling rules for substances and mixtures.

2.2 Labelling elements:

The product is not to be classified as hazardous according to the labelling rules for substances and mixtures.

Additional information:

This product is a cosmetic product which is not subject to the classification and labelling rules for chemical products.

2.3 Other hazards:

The product does not contain any PBT or vPvB substances.

3. COMPOSITION / INFORMATION ON INGREDIENTS

3.1 Substances:

Dieses Produkt ist ein Gemisch

3.2 Mixtures:

Ingredients (INCI):

Aqua, Paraffinum Liquidum, Lanolin, Zinc Oxide, Petrolatum, Cera Alba, Cetearyl Alcohol, Pentylene Glycol, Sorbitan Sesquileate, Cholesterol, Linoleic Acid, Oleic Acid, Linolenic Acid, Retinyl Palmitate, Palmitic Acid, Stearic Acid, Tocopherol, Citric Acid, Sodium Benzoate, Parfum, Potassium Sorbate, Linalool, Coumarin, Limonene

4. FIRST AID MEASURES

4.1 Description of the first aid measures:

- After inhalation:** The product does not release hazardous vapours. Provide fresh air.
- After ingestion:** Rinse mouth thoroughly and drink 1-2 glasses of water in small sips. If you feel unwell consult a doctor.
- After skin contact:** The product is intended for contact with the skin. In case of burning on contact with wounds rinse with water.
- After eye contact:** Flush with water (preferably with eye wash bottle) until irritation subsides. If symptoms persist Seek medical advice if symptoms persist.
- General:** In case of doubt or persistent indisposition, consult a doctor. The product has been subject to a safety assessment according to Article 10 of Regulation (EC) No 1223/2009 on cosmetic products. products. If, despite the safety assessment carried out, the use of the product causes any discomfort or indisposition, please report this to Turimed AG, info@turimed.ch or call +41 43 443 31 31, so that the necessary corrective action can be taken. necessary corrective action can be taken and the obligation to report serious undesirable in accordance with Article 23 of the Ordinance can be fulfilled. Serious undesirable effects must always be reported to the competent authority in Switzerland or in the Member State of the EU, in which the effect occurred.

4.2 Most important symptoms and effects, both acute and delayed:

Not relevant as it is a cosmetic product.

4.3 Information on immediate medical help or special treatments:

No special immediate treatment required. Treat symptoms.

5. FIREFIGHTING MEASURES

5.1 Extinguishing agent:

- suitable extinguishing agents:** The product is not directly flammable. Choose the fire extinguishing agent according to the surrounding fire.
- unsuitable extinguishing agents:** Do not extinguish with a full jet of water as this could cause the fire to spread further.

5.2 Special hazards arising from the substance or mixture:

The product is not directly flammable. Avoid inhalation of vapours and smoke - seek fresh air. In case of fire, the product decomposes and may produce the following dangerous types of gas: Carbon monoxide and carbon dioxide.

5.3 Advice for firefighters:

If safe to do so, remove container from danger zone. Do not inhale vapours and fumes. Provide fresh air. fresh air.

6. MEASURES IN THE EVENT OF ACCIDENTAL RELEASE

6.1 Personal precautions, protective equipment and emergency procedures:

No special requirements.

6.2 Environmental protection measures:

Avoid unnecessary emission.

6.3 Methods and material for retention and cleaning:

Absorb with liquid-binding materials (sand, diatomaceous earth, universal binder, sawdust) and fill into suitable waste containers. Wipe up drips and splashes with a cloth.

6.4 Reference to other sections:

For protective regulations, see section 8.
Disposal see section 13.

7. HANDLING AND STORAGE

7.1 Protective measures for safe handling:

No special requirements.

Safety data sheet

Trade name: **KERODERM**

created on: 05.01.2023
replaces version from: 30.01.2020

7.2 Conditions for safe storage taking into account incompatibilities:

Storage temperature: 15-25 °C. Store in a dry place.

7.3 Specific end uses:

No. Use as skin cream.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTIVE EQUIPMENT

8.1 Parameters to be monitored:

Occupational exposure limit:
Contains no notifiable substances.

Legal basis:

Technical Rules for Hazardous Substances, Occupational Exposure Limits TRGS 900, January 2006 edition. Last amended and supplemented: GMBI 2017.

8.2 Exposure controls and monitoring:

Suitable technical control devices: Wear the personal protective equipment specified below.
Personal protective equipment Eye/face protection: Not required
Personal protective equipment Skin protection: Not required
Personal protective equipment Hand protection: Not required
Personal protective equipment Respiratory protection: Not required
Limitation and monitoring of environmental exposure: Ensure compliance with local emission regulations.

9. PHYSICAL AND CHEMICAL CHARACTERISTICS

9.1 Information on the basic physical and chemical characteristics:

Condition:	Ointment
Colour:	White
Odour:	Perfumed
Solubility:	Insoluble in water
Explosive properties:	N/A
Oxidising Properties:	N/A
pH Value:	No data
Melting Point / Freezing Point:	No data
Freezing Point:	No data
Initial boiling point and boiling range (1013 mbar):	No data
Flash point:	No data
Evaporation rate:	No data
Flammability (solid, gas):	No data
Flammability limits:	No data
Explosion Limit:	No data
Vapour pressure:	No data
Vapour density:	No data
Relative density:	No data
Partition coefficient: n-octanol/water:	No data
Auto-ignition temperature:	No data
Decomposition temperature:	No data
Viscosity:	400000 - 900000 cps
Odour threshold:	No data

9.2 Other information:

Density: 0.953 – 1.030 g/cm³

10. STABILITY AND REACTIVITY

10.1 Reactivity:

Unresponsive.

10.2 Chemical stability:

The product is stable provided it is used according to the manufacturer's instructions.

10.3 Possibility of dangerous reactions:

Not known.

Safety data sheet

Trade name: **KERODERM**

created on: 05.01.2023
replaces version from: 30.01.2020

10.4 Conditions to avoid:

Not known.

10.5 Incompatible materials:

Not known.

10.6 Dangerous decomposition products:

In case of fire or severe heating, the product decomposes and may produce the following dangerous types of gas: Carbon monoxide and carbon dioxide.

11. TOXICOLOGY INFORMATION

11.1 Information on toxicological effects:

Acute toxicity - oral:

Ingestion of larger quantities may cause discomfort. The product does not need to be classified.

Acute toxicity - dermal:

The product does not need to be classified.

Akute Toxizität - inhalativ:

The product does not need to be classified.

Etching:

The product does not need to be classified.

Serious eye damage/irritation:

Temporary irritation. The product does not need to be classified.

Sensitisation of the respiratory tract or skin:

The product does not need to be classified.

Germ cell mutagenicity:

The product does not need to be classified.

Carcinogenicity:

The product does not need to be classified.

Reproductive toxicity:

The product does not need to be classified.

Single STOT exposure:

The product does not release hazardous vapours.

Repeated STOT exposure:

The product does not need to be classified.

Aspiration hazard:

No risks.

Other toxicological properties:

The product has been subject to a safety assessment in accordance with Article 10 of Regulation (EC) No 1223/2009 on cosmetic products.

12. INFORMATION ON ECOLOGY

12.1 Toxicity:

The product does not need to be classified.

12.2 Persistence and degradability:

Expected to be biodegradable.

12.3 Bioaccumulative potential:

No biocumulation expected.

12.4 Mobility in soil:

Test data are not available.

12.5 Results of PBT and vPvB assessment:

The product does not contain any PBT/vPvB substances.

12.6 Other adverse effects:

Not known.

Safety data sheet

13. NOTES ON DISPOSAL

13.1 Waste treatment process:

Contact the local authorities.

Empty, cleaned packaging should be sent for recycling. Uncleaned packaging should be disposed of in accordance local waste disposal regulations.

Waste categories EU / Germany / Switzerland: 07 06 99 n.e.c.

14. TRANSPORT INFORMATION

Road transport, ADR, RID

14.1 UN number: not applicable.

14.2 UN proper shipping name: not applicable.

14.3 Transport hazard classes: not applicable.

14.4 Packaging group: not applicable.

14.5 Environmental hazards: not applicable.

14.6 Special precautions for the user: no

14.7 Carriage in bulk in accordance with Annex II of MARPOL 73/78 and the IBC Code.:
not applicable.

15. LEGAL REGULATIONS

15.1 Safety, health and environmental regulations/specific legislation:

Special regulations:

The product falls under Regulation (EC) No 1223/2009 of the European Parliament and of the Council on cosmetic products. The product is therefore not covered by Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, see there Art. 1, Para. 5 (c). Furthermore, the product does not contain any of the substances listed in Regulation (EC) No 1907/2006, Article 31, Para. 1 (b) and (c) or paragraph 3 (a), (b) and (c). Consequently, the product is not covered by Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), Article 31 of which sets out requirements for safety data sheets. Therefore, it is not necessary to prepare a safety data sheet for the above-mentioned product, which fulfils the requirements of the Regulation.

15.2 Chemical safety assessment:

A chemical safety assessment has not been carried out. The product has been subject to a safety assessment according to Article 10 of Regulation (EC) No 1223/2009 on cosmetic products.

16. SONSTIGE ANGABEN

Abkürzungen:

n.a: not applicable
ggf.: if applicable (gegebenenfalls)
DNEL: Derived No Effect Level
PNEC: Predicted No Effect Concentration
PBT: Persistent, Bioaccumulative and Toxic
vPvB: Very Persistent and Very Bioaccumulative
STOT: Specific Target Organ Toxicity

Other information:

Shelf life: 48 months

Notes on the application:

KERODERM is suitable for the treatment of small, superficial injuries. The ointment supports the natural tissue regeneration of the skin. It contains nourishing and bacteria-inhibiting substances and promotes the natural regeneration process of the skin.

Safety data sheet

Trade name: **KERODERM**

created on: 05.01.2023
replaces version from: 30.01.2020

Clean the affected skin areas carefully and disinfect if necessary. Apply a small amount to dry skin areas once or several times a day, as needed, and cover with a plaster or bandage if necessary.
